Overview

This course examines environmental change over both short and long periods of earth history, considering both physical and human processes. An integrative approach (which combines physical and social science perspectives) provides a basis for understanding some of the world's most pressing environment and development challenges, such as climate change, biodiversity loss, fossil energy consumption, and persistent hunger and malnourishment.

Format

This course is based upon lectures, readings, and 5 tutorials/short written assignments. You will find it helpful, and get more out of each lecture, if you keep up with the reading assignments for each unit, which are posted on OWL (the PowerPoints for each lecture will be posted after class). The course will follow the thematic outline below, but the schedule is subject to some flexibility.

Day	Time	Room

Methods of Evaluation

Labs/Short Written Assignments – 5 x 8% each _____	40%
Mid-term Test – Wednesday, October 28, 2015 (in class) _____	20%
Final Exam – TBA during Final Exam period (Dec. 11-22, 2015) _____	40%

Note on Exams

Both the mid-term test and the final exam are a combination of multiple choice and paragraph written answers, and will cover the content in course lectures, seminars, and readings. If you fail to write the mid-term test or the final on the scheduled date and time, you will be given zero, unless you communicate and receive permission from the instructor *prior* to the exam, in which case you will require a note from your physician (see note on special examination policy below).

Note on Labs and Written Assignments

You are expected to attend all of the tutorial sessions in the time-slot assigned on your schedule, and only under special circumstances can you arrange to attend a different time. Tutorials involve short written assignments which are due precisely 2 weeks later, in your next tutorial. Unless you communicate and receive permission from your lab instructor, missed assignments will be given a 0, and late assignments will be deducted a 10% penalty for each day late.

Additional Information

Western's Special Examination Policy

A special examination is any examination other than the regularly scheduled exam. Special exams will be allowed only on receipt of medical documentation verifying a serious illness that kept the student from writing the exam as originally scheduled. Such documentation is strictly confidential and kept in the student's file. In the case of missing a final exam for documented medical reasons, a special exam will be set within 30 days.

Special exams will not be granted for occasions such as employment interviews, weddings, bar mitzvahs, family reunions, vacations, misreading an exam timetable, or oversleeping. Neither will special exams be granted in order to facilitate transportation arrangements, such as booking flights for home or holidays. It is the policy to discourage informal arrangements by faculty which circumvent this regulation. Students seeking academic accommodation on medical grounds for missed exams must apply to the Academic Counselling office of their home Faculty and provide documentation. Academic accommodation cannot be granted by the instructor or department.

Use of Electronic Devices

No electronic devices are allowed during tests.

Academic Offences

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at this website:
http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf

Plagiarism – Students must write their assignments in their own words. Whenever students take an idea, or a passage from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes and citations. Plagiarism is a major academic offence (see Scholastic Offence Policy in the Academic Calendar).

Fire Alarm Policy

Western Occupational Health and Safety requires that all students are required to evacuate the building when the fire alarm is activated. This is imperative, not an option.

Final Marks

The mark awarded by an instructor in a course at Western is only final when students receive it from the Registrar, and even then they can be changed on receipt by the Registrar of a Marks Revision Form. Marks are not finalized until the department chair has signed off.

Western's commitment to accessibility

The University of Western Ontario is committed to achieving barrier free accessibility for persons studying, visiting and working at Western. Please contact the course instructor if you require material in an alternate format or if you require any other arrangements to make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at 661-2111 x 82147 for any specific question regarding an accommodation.

Students with Special Needs

Any student with documented special needs should contact me as soon as possible so we can discuss any necessary accommodations to make this course a positive learning environment.
