Overview:

The course is a regional study of Canada in which the major regions of the country are studied with respect to geographical patterns of their physical environment, settlement, culture, economic activity, and land use.

Objectives:

The objectives of this course are to provide students with:

- expanded knowledge of the physical, cultural, economic, and political geography of Canada
- increased understanding of the differences among the regions of Canada
- improved map reading skills and geographic knowledge

Textbook:

Bone, R. M. (2014): *The Regional Geography of Canada* (6th Edition), Oxford University Press: Toronto, ON.

Assessment:

<i>Assessment Method</i>	<i>Date</i>	<i>Value</i>

All essays will be submitted to the plagiarism detection software Turnitin and will then be included as documents in the database for the purpose of detecting plagiarism in essays subsequently submitted to the system. Use of the service is subject to the current licensing agreement between The University of Western Ontario and Turnitin.

Computer marked multiple choice exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate academic misconduct.

Electronic Devices:

No electronic devices other than calculators will be permitted during examinations.

Mental Health:

If you or someone you know is experiencing distress, there are several resources at the university to assist. Visit this site for more information on mental health resources:
